Car 1 was dispatched reference a possible structure fire along with additional units. Communications advised that they were receiving multiple calls and reports indicated that the structure was fully involved.

Engine 4 arrived first at dispatched address finding a single story residence with heavy fire showing from the roof. Engine 4 assumed Command and initiated operations in an offensive mode. Engine 4 established water supply and performed a blitz attack with deck gun knocking down most of the fire. Engine 5 and Engine 8 were assigned to protect exposures bravo and charlie then moved inside to extinguish rest of fire. Ladder 5 was assigned to Search by Command. Car 1 arrived and took transfer of Command from Engine 4 assigning them as Fire Attack with Engine 5 and Engine 8 assisting. Ladder 11 was assigned as RIT and Rescue 5 was assigned to protect exposure on the delta side. Units worked and were able to bring fire under control and no one or pet was found in the home. Air 1 was on scene to provided rehab to working units.

Duke Energy and Piedmont Natural Gas were requested and responded to control their perspective utility. The occupants declined assistance from the American Red Cross. Fire and Life Safety assisted Car 33 in determining the cause of the fire which remains under investigation. Car 1 performed shift change on scene between assigned personnel.

Based upon the information available at the time of this report and after conducting a systematic fire scene examination, inspecting the physical evidence, reviewing photographs and witness observation, timeline analysis and employing the scientific method by means of formulating and discarding hypotheses; it is the opinion of Investigator B.H. Crump that the fire was undetermined due to multiple possible causes of ignition in the area of origin. The area of origin was determined to be on the back porch. With a mass loss and direction of fire travel on the wall studs and saddle burning to the floor joist. There was discarded smoking material being placed in a plastic container and a 240 outlet with oxidation, and damage to the wires. These area were located in two separate areas. Heavy charring to wall studs, mass loss at the lowest portion near the 240 outlet, the extent of damage to that area and other ordinary combustibles on the porch, and patterns point back to two possible areas the fire ignited.

Fire Incident Report Summary

Incident #: 20-0513005 **Officer in Charge:** Trexler, Michael E
Incident Date: 05/13/2020 **Incident Time:** 04:49:50
Incident Location: 923 CARR ST
Property Use: 1 or 2 family dwelling
Origin of Fire: Undetermined
Cause of Ignition: Unintentional
Heat Source: Undetermined
Item first Ignited: Undetermined
Type of Material Ignited:
